3 Reasons to Invest

- 1. Return Potential** : An investment of 500 EUR is projected to be worth approximately 1,696 EUR in 6 years.
- 2. Cost-to-Return Ratio** : After deducting 3.1% in annual total costs (including exit fees), your net return could reach 22.6% per year.
- 3. Nostalgic Rarity with Growing Demand** : The sealed Pokémon Base Set 2 booster box offers unmatched rarity and nostalgia from Pokémon's golden era. As fewer boxes remain unopened, their scarcity increases. With Pokémon's 30th anniversary in 2026, demand for vintage collectibles is expected to surge, driving significant value appreciation. This box provides a unique opportunity to capitalize on

both Pokémon's enduring global appeal and the growing market for sealed, investment-grade assets.

Purchase price in EUR	14,150
Platform fee in EUR	850
Storage and insurance in EUR	700
Number of Splints	314

Investment Case

Valuation Summary 📊 To ensure the competitiveness of the investment, we conducted a thorough verification of the purchase price by analyzing recent transactions and current market values on the secondary sport card market. Our analysis confirmed that the price offered, inclusive of all associated fees, is still highly competitive. To estimate the potential ROI, we based our analysis on the historical price development of the Pokémon Base Set 2 Booster Box. For the conservative scenario, we assumed the card's value would grow at the rate of Swiss inflation, taking a defensive approach. In the balanced scenario, we applied 75% of the average price increase for a Pokémon Base Set 2 Booster Box over the past two years. Finally, in the ambitious scenario, we applied 75% of the average price increase for a Pokémon Base Set 2 Booster Box over the past four years.

Exit Options at Maturity 📅 We will manage the exit strategy on behalf of our investors, ensuring the best possible outcome based on market conditions at the time. Depending on the value of the card and the prevailing market situation, we can either sell the card privately to a collector or take it to auction. Both options are carefully considered, and we will choose the one that maximizes the return for our investors.

Why Invest in This Category? ⚡ Investing in Pokémon cards is particularly timely with the franchise's upcoming jubilee, expected to drive heightened interest and value appreciation in rare and nostalgic collectibles.

Why Invest in This Asset? 🔥 The sealed Pokémon Base Set 2 booster box, released in 2000, offers collectors and investors an exciting opportunity to own a vintage product from Pokémon's golden era. Containing 36 unopened packs, each with the potential to reveal iconic holographic cards like Charizard, Blastoise, and Venusaur, it represents a treasure trove of value and nostalgia.

Sealed boxes are becoming increasingly rare as many are opened over time, driving up scarcity and value. Unlike modern Pokémon products, vintage sets have finite supply, which inherently increases their long-term desirability. Base Set 2 is particularly appealing

as it reprints cards from the original Base Set and Jungle expansions, offering collectors a chance to secure legendary cards at a more accessible price point compared to the original 1st Edition.

Pokémon remains the highest-grossing media franchise in the world, with a global fanbase that spans generations. Historical trends show strong demand spikes during milestone anniversaries, such as the upcoming 30th anniversary in 2026. This box is well-positioned to benefit from increased interest around that time, as sealed vintage items often experience significant price appreciation.

With rising demand for nostalgic collectibles and limited availability, this booster box combines rarity, cultural significance, and substantial investment potential, making it a highly attractive asset for new and seasoned collectors alike.

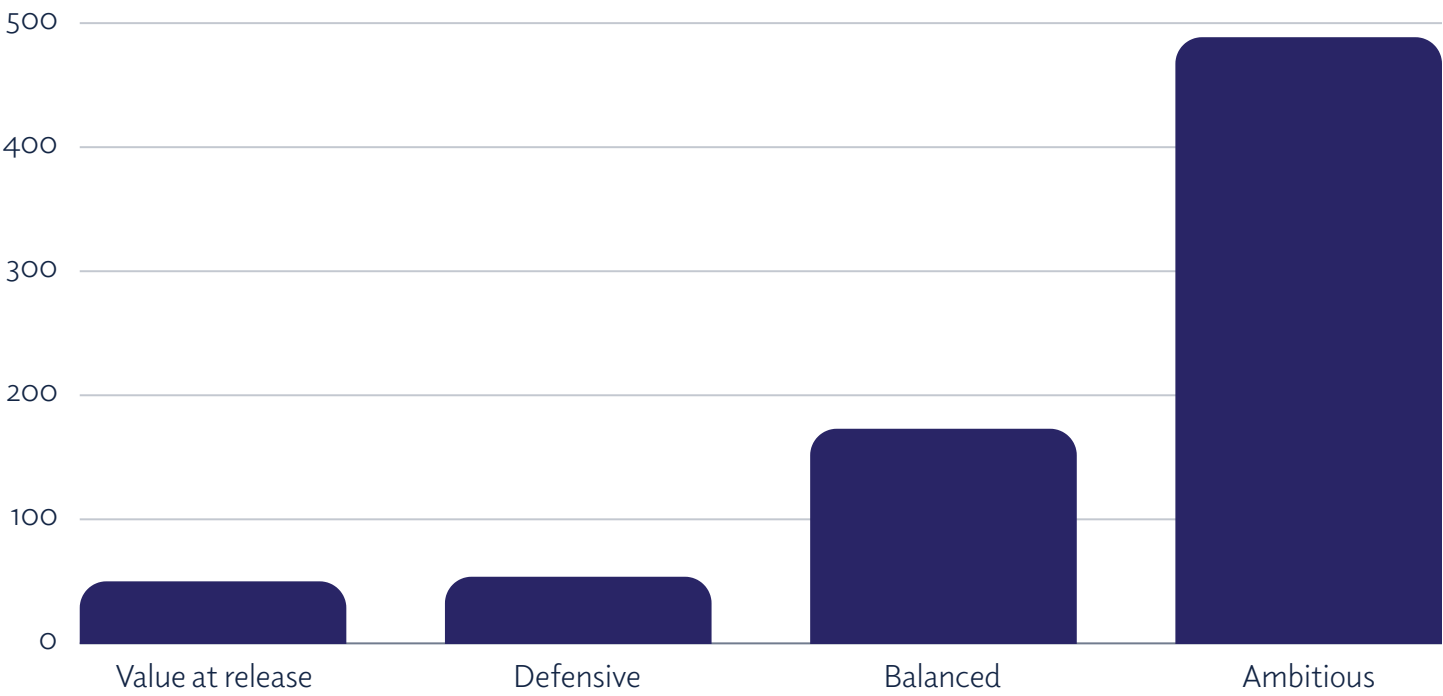

Context in Time 🕒 Base Set 2 emerged during Pokémon's early 2000s boom, a period when Pokémon cards captivated a global audience and became an international phenomenon. Today, vintage sets from this era are revered for their connection to the brand's roots. With Pokémon's 30th anniversary in 2026, interest in sealed products will likely surge, driving renewed demand and higher valuations.

Conclusion 🎯 In conclusion, this investment opportunity in the sealed Pokémon Base Set 2 booster box offers a blend of rarity, historical significance, and strong market demand. Our rigorous valuation analysis confirms a competitive purchase price, with growth potential based on historical trends for similar assets. Tailored exit strategies ensure flexibility for optimal returns, while Pokémon's approaching 30th anniversary further enhances the box's value. With proven resilience, increasing collector interest, and a limited supply, this asset uniquely combines cultural appeal with solid financial potential, making it a compelling addition to any diversified portfolio.

Projection

This box offers a low risk combined with an attractive return potential. The expected annual return ranges between 1.2% and 45.7%, depending on market conditions.
