Investment Case

Valuation Summary 📝 To ensure the competitiveness of the investment, we conducted a thorough verification of the purchase price by analyzing recent transactions and current market values on the secondary sport card market. Our analysis confirmed that the price offered, inclusive of all associated fees, is still highly competitive. To estimate the potential ROI, we used the historical performance data of the CardLadder Shohei Ohtani card index. For our conservative scenario, we assumed the value of the card would grow at the rate of Swiss inflation, reflecting a defensive approach. In the balanced scenario, we calculated 50% of the average annual growth rate of the CardLadder Shohei Ohtani card index over past six years. Finally, in the ambitious scenario, we applied the historical average annual growth rate of the CardLadder Shohei Ohtani card index over the past six years, reflecting an optimistic outlook.

Exit Options at Maturity 📅 We will manage the exit strategy on behalf of our investors, ensuring the best possible outcome based on market conditions at the time. Depending on the value of the card and the prevailing market situation, we can either sell the card privately to a collector or take it to auction. Both options are carefully considered, and we will choose the one that maximizes the return for our investors.

Why Invest in This Category? 🌐 Sports cards are an asset class that has enjoyed one of the highest multipliers in growth over the last 5 to 15-year span among alternative investment vehicles. Sports cards have strong fundamentals in bringing high valued licenses, age-tested brands, universal passion for sports, and transcendent talents together in innovative concepts.

Why Invest in This Asset? 🏆 Shohei Ohtani's 2020 Prizm Black Finite 1/1 card is an extraordinary opportunity to invest in one of the rarest and most sought-after assets in sports collectibles. This card is a "1 of 1"—the only one ever made—which ensures its unmatched exclusivity. As Panini's flagship brand, Prizm holds the highest market value in the hobby, and the Black Finite base parallel is universally recognized as the crown jewel of any player's Prizm collection.

Ohtani is not just a baseball star; he is a global phenomenon. Often compared to Babe Ruth, Ohtani excels as both a hitter and pitcher, breaking over 30 century-old records and making history with the 50-50 club—50 home runs and 50 stolen bases in a single MLB

season. In 2023, he led Japan to a World Baseball Classic victory, cementing his legacy as a transcendent athlete. His economic and cultural impact is staggering, with an estimated \$594 million contribution to the economy in 2024 alone, outperforming the present-day value of his record-breaking \$700 million Dodgers contract.

The card itself features a stunning Black Finite design with Ohtani's dynamic hitting pose, combining aesthetics with historical significance. Given the demand for high-profile Prizm Black 1/1 cards—like Kobe Bryant's third-year card sold for €395,000—the upside for Ohtani's second-year Prizm card is substantial. This offering is not only the earliest available Ohtani Prizm Black Finite but also an irreplaceable piece of modern baseball history.

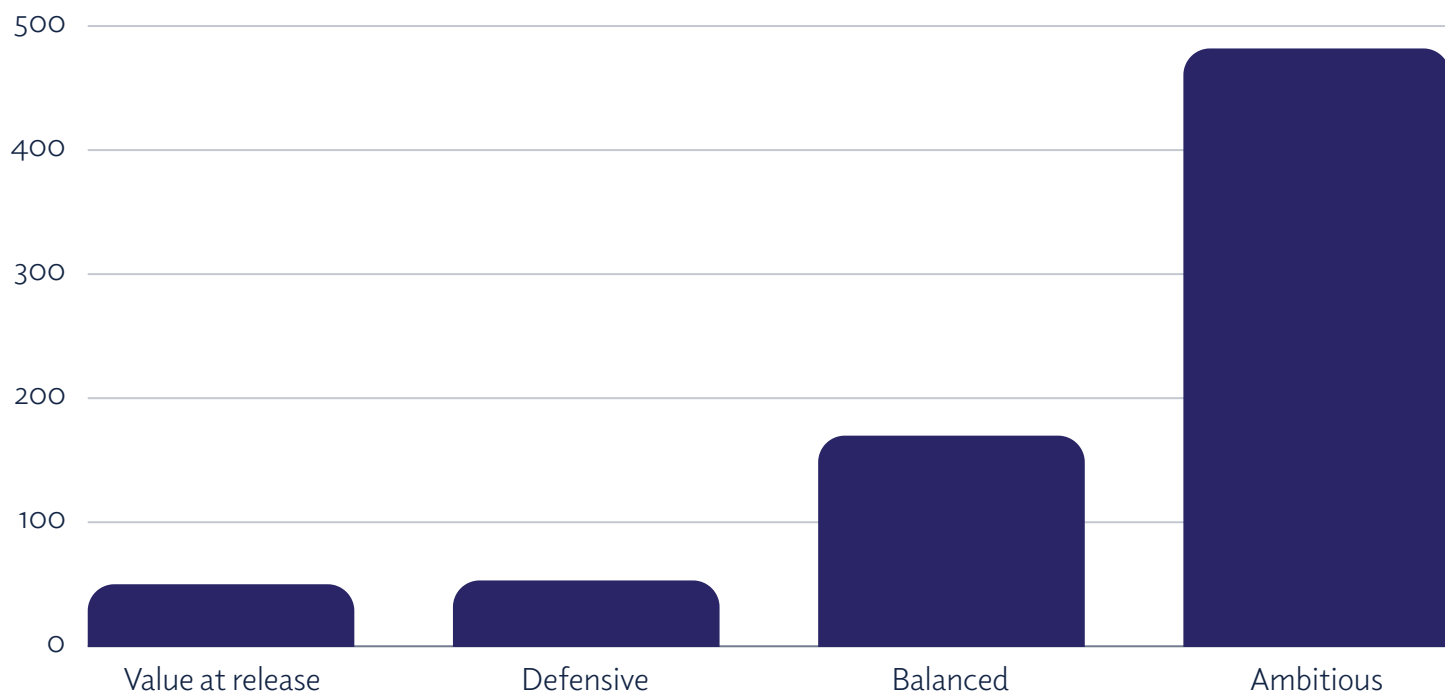

Context in Time 🕒 Shohei Ohtani's 2020 Prizm Black Finite 1/1 card reflects the evolution of the sports card market and Panini's dominance since 2012. Released during Ohtani's meteoric rise, it captures his second year of Prizm—a critical moment as he became MLB's face and an international superstar. Its timing, rarity, and significance make this card a modern classic.

Conclusion 🎯 Shohei Ohtani's 2020 Prizm Black Finite 1/1 card offers unparalleled rarity, historical significance, and strong upside potential. As a unique asset in the sports card market, it combines Ohtani's transcendent global appeal with Panini's flagship Prizm brand, making it a compelling investment for collectors seeking exceptional returns and exclusivity.

Projection

The sport card offers high return potential. The expected annual return ranges between 1.2% and 57.3%, depending on market conditions.
