Purchase price in EUR	8,800
Platform fee in EUR	700
Storage and insurance in EUR	700
Number of Splints	204

Investment Case

Valuation Summary 📊 To ensure the competitiveness of the investment, we conducted a thorough verification of the purchase price by analyzing recent auction prices. Our analysis confirmed that the price offered, inclusive of all associated fees, is highly competitive as the price is 15% below the 12-month auction average. To estimate the potential ROI, we used the average annual price increase of the RareWhisky 101 Macallan index. For our conservative scenario, we assumed the value of the bottles would grow at the rate of Swiss inflation, reflecting a defensive approach. In the balanced scenario, we assumed a 95% probability of realizing the RareWhisky 101 Macallan index price increase over the last 12 years. Finally, in the ambitious scenario, we assumed a 100% probability of realizing the RareWhisky 101 Macallan index price increase over the last 12 years. These potential returns over the next 8 years, in both the balanced and ambitious scenarios, are further enhanced by the 15% discount to the recent auction prices.

Exit Options at Maturity 📅 We will manage the exit strategy on behalf of our investors, ensuring the best possible outcome based on market conditions at the time. Depending on the prevailing market situation, the bottles will be sold to private collectors or offered as single lots at a whisky auction. An auction is considered if the price has developed to the point where the minimum bid matches the market value and there is high demand for these bottles. Both options are carefully considered, and we will choose the one that maximizes the return for our investors.

Why Invest in This Category? 🥃 There are many reasons why investors should consider rare bottles of whisky as one of the best alternative investment opportunities. Rare whisky has been by far the top performer among luxury goods for some time. Its value has risen over 384% in the past 12 years and is not directly tied to stock market conditions. So while equities could experience significant price corrections, whisky would steadily increase in value over time.

Why Invest in This Asset? 💎 The Macallan Distil Your World New York Edition is more than a whisky—it is a piece of history. Limited to just 1,000 bottles worldwide, this

expression captures the essence of New York's vibrant energy and creativity, blending masterful craftsmanship with an unparalleled storytelling experience. The whisky itself is a meticulously curated single malt, bottled at 49.5% ABV and aged in a selection of both American and European oak casks, resulting in a rich, complex profile featuring notes of baked apple, peanut brittle, and milk chocolate.

Macallan's limited-edition releases have historically demonstrated strong price appreciation, fueled by brand prestige and market demand. Investors in past Macallan editions, such as the Concept Series or the Distil Your World London Edition, have seen remarkable returns, with bottles doubling or tripling in value within a few years of release.

The secondary market for high-end whisky is thriving, with collectors and enthusiasts driving prices upwards at auctions and private sales. Given the increasing demand for ultra-rare Macallan expressions, combined with a proven track record of appreciation, the New York Edition is poised to become a future blue-chip whisky investment. Furthermore, the meticulously designed packaging, featuring an artistic interpretation of the New York skyline, adds an additional layer of collectible appeal.

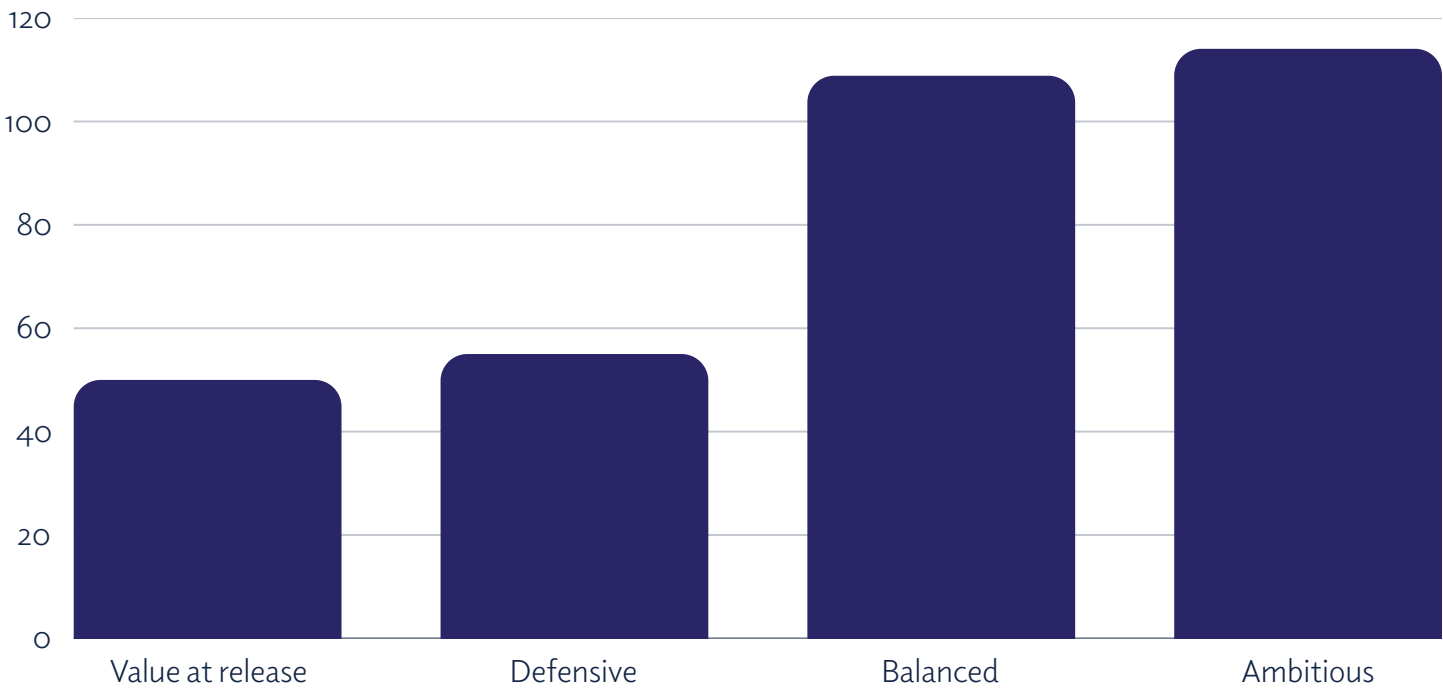

Context in Time 🕒 The Macallan Distil Your World series is a tribute to the world's most iconic cities, with New York standing as a symbol of ambition, resilience, and cultural vibrancy. This release marks Macallan's continued dedication to blending whisky mastery with storytelling. As Macallan's global recognition expands, early investors in these limited editions are positioned to benefit from increasing market desirability.

Conclusion 🎯 The Macallan Distil Your World New York Edition is an exclusive investment opportunity, combining rarity, prestige, and proven market appreciation. With only 1,000 bottles worldwide, a 15% discount to auction prices, and strong historical performance, this whisky presents a compelling alternative asset. Investors stand to benefit from stability, liquidity, and long-term value growth.

Projection

This bottle offers a low risk combined with an attractive return potential. The expected annual return ranges between 1.2% and 10.9%, depending on market conditions.
