Splint

Rating

8/10

Return

Due to the limited supply and the fact that customer interest in the Datejust series has steadily increased, we see significant upside potential in this asset, especially since the price of the watch has increased over **+5.6%** in the last three months.

The Datejust achieves an average annual appreciation of **19.2%** over the last **3 years**.

7/10

Stability

Over the past **twelve months**, the Rolex Datejust – Referenz 126300 has shown price volatility of **21.2%**.

9/10

Track Record

Founded in 1908, Rolex manufactory produces the most famous and popular watches in the world. Due to the limited production, the watches have also been popular with investors for decades.

The Rolex index achieves an average annual increase in value of **12.1%** over the last **5 years**.

Investment Horizon of 5 to 7 Years

Forecast per Splint in €	5 years	6 years	7 years
Offensiv	169	222	291
Balanced	105	125	149
Defensiv	86	98	113

- Investment horizon has been set to 5 to 7 years.
- The contraction in production and supply of the popular Rolex models will accelerate price increases in the near future, which makes the Rolex Datejust a perfect medium-term investment.
- If one of the following two conditions is met, the sale of the asset is considered:
  - End of the defined investment horizon has been reached.
  - Offensive case already occurs before the end investment horizon.

Your Return Potential

	Value in € defensive	Value in € balanced	Value in € offensive
